

Who Says You Can't Count Your Chickens Before They're Hatched?

Forest City Gear works with customers to create the highest quality, precision gears on the market. We pride ourselves on innovative approaches to new and old ideas of mechanical motion. Our application engineers have often found ways to improve the performance, the wear life and the accuracy of gears, simply by taking a *"rule the roost"* attitude about problem-solving for our worldwide customers.

Some of those customers actually include other gear companies, who look to us for assistance on the toughest shaping, hobbing and finishing tasks. We've had *"dozens"* of such success stories over the years and it's one of the many reasons for our reputation as *"mother hen"* to the American gear industry. It's a job we take quite seriously.

We know *"you need to crack some eggs to make the omelet"* and we incorporate that philosophy into our business, every day. Better gears are the result. Plus, you'll find the experience of dealing with our Forest City Gear employees is never a *"shell game."*

Please contact Fred Young today for all the details. To get a good look at one gear company that's always *"hatching"* new and better ideas, go to www.forestcitygear.com.
