

Dear Fred,

The AGMA Foundation offers a \$5,000 scholarship to assist graduate-level engineering students whose programs focus on gear technology or gear research. The scholarship is made possible by generous contributions to the Don McVittie Memorial Education Fund. Please help us alert graduate students about this scholarship opportunity!

The scholarship application deadline is July 5, 2011, with award notification in August. For specific eligibility requirements and application guidelines, please visit the [Foundation's scholarship web page](#) at this link.

Regards,

Sandra
